

# STCO 200

## High Impact 360 ° Barrel Washer

The STCO-200 series is a 360° rotating tank cleaning head, specifically designed for barrel and tank washing applications. Made from high-grade 316L stainless steel, it offers exceptional corrosion resistance and durability. Its efficient rotating action ensures thorough internal cleaning, whilst reducing water and chemical wastage, making it ideal for wineries, breweries, and food processing environments.

- High Impact Jets increase cleaning efficiency
- Ultra Compact and can Fit into Openings of just 45mm
- Reduced water and chemical use

### Performance Data

<b>Material</b>	316LSS, PEEK, EPDM
<b>Recommended Pressure</b>	5-20 bar
<b>Max. Pressure</b>	30 bar
<b>Max. Cleaning Diameter</b>	2 metres
<b>Spray Angle</b>	360°
<b>Cleaning Cycle</b>	2-4 minutes
<b>Inlet Connection</b>	3/4" BSPF (NPT thread on request)
<b>Weight</b>	2.1 kg
<b>Min. Tank Openings</b>	45mm
