

STCO 3600-B

Rotating High Impact Jet Spray - Large Tank

The STCO-3600B is designed for medium-sized tanks, delivering full 360° coverage with a cleaning diameter of up to 15 metres. It features concentrated high-impact jets for superior cleaning efficiency.

- High-performance jet action for effective residue removal
- Durable, low-maintenance stainless steel construction
- Ideal for CIP systems, food, beverage, and chemical industries

Performance Data

Model	3600-B
Material	316LSS , PTFE
Spray Coverage	360°
Recommend Pressure	4-13 bar
Working Pressure	3-15 bar
Inlet Connection	2" BSPM
Weight	5 kg
Cleaning Diameter	15 metres
Flow Rate @ 10 Bar (l/min)	200 L/min
